journal of **dairy research**

Contents Volume 70

No. 1 (February 2003)

Use of ultrasonography to estimate cistern size and milk storage at different milking intervals in the udder of dairy cows **M Ayadi, G Caja, X Such and CH Knight** 1

Effects of dietary supplements of zinc methionine on milk production, udder health and zinc metabolism in dairy goats **AA Salama, G Caja, E Albanell, X Such, R Casals and J Plaixats** 9

Basement membrane integrity and keratinization in healthy and ulcerated bovine hoof tissue **KAK Hendry, CH Knight, H Galbraith and CJ Wilde** 19

Characterization of equine cDNA sequences for α_{s1}-, β- and κ-casein **T Lenasi, I Rogelj and P Dovc** 29

Isolation, purification and characterization of chymosin from riverine buffalo (*Bubalos bubalis*) **AK Mohanty, UK Mukhopadhyay, JK Kaushik, S Grover and VK Batish** 37

Heterogeneity of proteolytic enzyme activities in milk samples of different somatic cell count **JM Somers, B O'Brien, WJ Meaney and AL Kelly** 45

Reduction of immunoreactivity of bovine β-lactoglobulin upon combined physical and proteolytic treatment **F Bonomi, A Fiocchi, H Frøkiær, A Gaiaschi, S Iametti, C Poiesi, P Rasmussen, P Restani and P Rovere** 51

Heat-induced interactions of β-lactoglobulin A and κ-casein B in a model system **Y Cho, H Singh and LK Creamer** 61

Association of denatured whey proteins with casein micelles in heated reconstituted skim milk and its effect on casein micelle size **SG Anema and Y Li** 73

Kinetics of hydroxymethylfurfural, lactulose and furosine formation in milk with different fat content **WL Claeys, AM Van Loey and ME Hendrickx** 85

Repeatability estimates for milk coagulation traits and non-coagulation of milk in Finnish Ayrshire cows **A-M Tyrisevä, T Ikonen, M Ojala** 91

A preliminary study on the effect of adding yeast extract to cheese curd on proteolysis and flavour development of reduced fat Cheddar **Shakeel-Ur-Rehman, NY Farkye, ER Vedamuthu and MA Drake** 99

Evidence of a relationship between autolysis of starter bacteria and lipolysis in Cheddar cheese during ripening **YF Collins, PLH McSweeney and MG Wilkinson** 105

Proteolysis in rennet-coagulated Spanish hard cheeses made from milk preserved by refrigeration and addition of carbon dioxide **P Ruas-Madiedo, JC Bada-Gancedo, T Delgado, M Gueimonde and CG de los Reyes-Gavilán** 115

Chronic oxytocin treatment causes reduced milk ejection in dairy cows **RM Bruckmaier** 123

Estimation of inbreeding in cattle using RAPD markers **TK Bhattacharya, P Kumar, JD Joshi and S Kumar** 127

No. 2 (May 2003)

Intramammary pressure in the lactating sow in response to oxytocin and during natural milk ejections throughout lactation **JC Kent, LM Kennaugh and PE Hartmann** 131

Evaluation of diagnostic procedures for subclinical mastitis in meat-producing sheep
ACA Clements, DJ Taylor and JL Fitzpatrick 139

Multiplex polymerase chain reaction as a mastitis screening test for *Staphylococcus aureus, Streptococcus agalactiae, Streptococcus dysgalactiae* and *Streptococcus uberis* in bulk milk samples
P Phuektes, GF Browning, G Anderson and PD Mansell 149

Dynamics of experimentally induced *Staphylococcus epidermidis* mastitis in East Friesian milk ewes
P Winter, F Schilcher, K Fuchs and IG Colditz 157

Immunomodulatory consequences of oral administration of *Lactobacillus rhamnosus* strain GG in healthy volunteers **M Schultz, H-J Linde, N Lehn, K Zimmermann, J Grossmann, W Falk and J Schölmerich** 165

No difference in symptoms during challenges with homogenized and unhomogenized cow's milk in subjects with subjective hypersensitivity to homogenized milk **L Paajanen, T Tuure, T Poussa and R Korpela** 175

Effect of dietary inclusion of goat milk on the bioavailability of zinc and selenium in rats **MJM Alférez, I López Aliaga, M Barrionuevo and MS Campos** 181

Antibacterial activity of casein-derived peptides isolated from rabbit (*Oryctolagus cuniculus*) milk
M Baranyi, U Thomas and A Pellegrini 189

Chromosomal location of the genetic determinants for bacteriocins produced by *Lactobacillus gasseri* K7
A Čanžek Majhenič, B Bogovič Matijašić and I Rogelj 199

Effect of protein and temperature on cutting time prediction in goats' milk using an optical reflectance sensor
MZ Castillo, FA Payne, CL Hicks, JS Laencina and M-BM López 205

Influence of seasonal variation on kinetics of time temperature integrators for thermally processed milk
WL Claeys, AM Van Loey and ME Hendrickx 217

Effects of lactoperoxidase and hydrogen peroxide on rheological properties of yogurt
B Özer, A Grandison, R Robinson and M Atamer 227

Prevalence of intramammary infections by major pathogens at parturition in dairy cows after intramuscular antibiotic therapy at drying-off: a preliminary report **H Tarabla and V Canavesio** 233

Molecular characterization of the goat $CSN1S1^{01}$ allele
G Cosenza, R Illario, A Rando, P di Gregorio, P Masina and L Ramunno 237

Use of an ion-selective electrode to determine free Ca ion concentration in the milk of various mammals
N Silanikove, F Shapiro and A Shamay 241

Detection of *Brucella* spp. in soft cheese by semi-nested polymerase chain reaction
GM Tantillo, A Di Pinto and C Buonavoglia 245

Catabolism of aromatic amino acids in cheese-related bacteria: aminotransferase and decarboxylase activities
AC Curtin and PLH McSweeney 249

Heat induced gelation of acid milk: balance between weak and covalent bonds
O Surel and M-H Famelart 253

No. 3 (August 2003)

Effect of cereal grain and fibre supplements on the fatty acid composition of milk fat of grazing dairy cows in early lactation **C Wijesundera, Z Shen, WJ Wales and DE Dalley** 257

Influence of pasture and concentrates in the diet of grazing dairy cows on the fatty acid composition of milk
CR Stockdale, GP Walker, WJ Wales, DE Dalley, A Birkett, Z Shen and PT Doyle 267

The effect of morphine and naloxone on the release of prolactin during machine milking in dairy cows
V Tančin, D Schams and W-D Kraetzl 277

Factors affecting mouthpiece chamber vacuum in machine milking
M Borkhus and O Rønningen 283

Effects of α- and β-adrenergic receptor stimulation and oxytocin receptor blockade on milking characteristics in dairy cows before and after removal of the teat sphincter **T Inderwies, J Riedl, E Kiossis and RM Bruckmaier** 289

Growth kinetics and hydrolytic enzyme production of *Pseudomonas* spp. isolated from pasteurized milk
RG Stevenson, MT Rowe, GB Wisdom and D Kilpatrick 293

High pressure homogenization of raw whole bovine milk (a) effects on fat globule size and other properties
MG Hayes and AL Kelly 297

High pressure homogenization of milk (b) effects on indigenous enzymatic activity
MG Hayes and AL Kelly 307

Synthetic peptides as substrates for assaying the proteolytic activity *Lactobacillus helveticus*
S Caira, PG Ferranti, M Gatti, ME Fornasari, FG Barone, S Lilla, G Mucchetti, G Picariello, L Chianese, E Neviani and F Addeo 315

pH-Sensing 96-well microtitre plates for the characterization of acid production by dairy starter cultures
GT John, D Goelling, I Klimant, H Schneider and E Heinzle 327

Modelling casein aggregation and curd firming in goats' milk from backscatter of infrared light
MZ Castillo, FA Payne, CL Hicks, JS Laencina and M-BM López 335

Effect of stimulation intensity on oxytocin release before, during and after machine milking **D Weiss, A Dzidic and RM Bruckmaier** 349

A *Mva*I PCR-RFLP detecting a silent allele at the goat α-lactalbumin *locus* **G Cosenza, D Gallo, R Illario, P di Gregorio, C Senese, L Ferrara and L Ramunno** 355

Synthesis of ethyl butanoate by a commercial lipase in aqueous media under conditions relevant to cheese ripening **S-Q Liu, R Holland and V Crow** 359

Book Review: Advanced Dairy Chemistry-1 Proteins.
Eds PF Fox and PLH McSweeney **E Needs** 365

No. 4 (November 2003)

Effects of retinoids on proliferation and plasminogen activator expression in a bovine mammary epithelial cell line **F Cheli, I Politis, L Rossi, E Fusi and A Baldi** 367

Effects of atropine on plasma amino acid profiles and on the synthesis of individual milk proteins in dairy cows fed with pasture **MJ Auldist, CM Menzies and CG Prosser** 373

Haptoglobin and serum amyloid A in milk and serum during acute and chronic experimentally induced *Staphylococcus aureus* mastitis **U Grönlund, C Hultén, PD Eckersall, C Hogarth and K Persson Waller** 379

Effect of penethamate hydriodide treatment on bacteriological cure, somatic cell count and milk production of quarters with chronic subclinical *Streptococcus uberis* or *Streptococcus dysgalactiae* infection
SG St.Rose, JM Swinkels, WDJ Kremer, CLJJ Kruitwagen and RN Zadoks 387

A case of sporadic ovine mastitis caused by *Listeria monocytogenes* and its effect on contamination of raw milk and raw-milk cheeses produced in the on-farm dairy **D Schoder, P Winter, A Kareem, W Baumgartner and M Wagner** 395

Tentative hierarchization of the influence of milk properties and technological practices on rheological properties of Abondance cheese **L Tessier, C Bugaud and S Buchin** 403

Effect of specific wavelengths on light-induced quality changes in Havarti cheese **G Mortensen, J Sorensen, B Danielsen and H Stapelfeldt** 413

Improvement of rheological properties of firm acid gels by skim milk heating is conserved after stirring
P Cayot, J-F Fairise, B Colas, D Lorient and G Brulé 417

Probiotics induce resistance to enteropathogens in a re-nourished mouse model
PG Cano and G Perdigón 433

Losses of precision associated with simplified designs of milk recording for dairy ewes **C Gonzalo, MH Othmane, JA Fuertes, FL De La Fuente and F San Primitivo** 441

Accuracy of Fourier transform infrared spectrometry in determination of casein in dairy cows' milk
LK Sørensen, M Lund and B Juul 445

The use of sedimentation field flow fractionation and photon correlation spectroscopy in the characterization of casein micelles **P Udabage, IR McKinnon and MA Augustin** 453

FTIR determination of ligand-induced secondary and tertiary structural changes in bovine plasminogen
KD Hayes, BF Ozen, SS Nielsen and LJ Mauer 461

Biochemical characterization of buffalo (*Bubalus bubalis*) milk lysozyme
S Priyadarshini and VK Kansal 467
